

EASTHAMPSTEAD PARK COMMUNITY SCHOOL

Health & Safety Policy

1. GENERAL

The Governing Body of Easthampstead Park Community School recognises that the ultimate responsibility for the implementation of the Health and Safety Policy within the school is theirs in accordance with all the guidelines of the Health and Safety at Work, etc Act 1974. The Governing Body accepts that it has a responsibility to take all reasonably practicable steps to secure the health and safety of students, staff and others using the school premises or participating in school-sponsored activities. It believes that the prevention of accidents, injury or loss is essential to the efficient operation of the school and is part of the good education of its students.

The aim of the Governing Body is "To provide a safe and healthy working and learning environment for staff, students, visitors and the public."

The arrangements outlined in this statement and the various other safety provisions made by the Governing Body cannot prevent accidents or ensure safe and healthy working conditions. However, the Governing Body believes that only the adoption of safe methods of work and good practice by every individual can ensure everyone's personal health and safety.

The Governing Body will take all reasonable steps to identify and reduce hazards to a minimum. At the same time all staff and students must appreciate that their own safety and that of others also depends on their individual conduct and vigilance while on the school premises or while taking part in school-sponsored activities.

This Health and Safety Policy Statement and related arrangements for implementation are not a substitute for the above mentioned legislation, Bracknell Forest Borough Council and Education Department policy safety guidelines, but are complementary and have been formulated to reflect our schools own needs.

This statement supplements the Health and Safety Policy Statements written by Bracknell Forest Borough Council and by the Education Department. Copies of these statements, policies and the Bracknell Forest Borough Council Health, Safety and Welfare Manual of Guidance are available in the Admin Office.

4. INDUCTION AND TRAINING

Heads of Departments have a special responsibility to ensure new members of staff joining their departments are introduced to the health and safety procedures. Also the Heads of Year, assisted by the Form Tutors, should ensure that all new students are made aware of the health and safety procedures as part of the induction process.

There are specific requirements for the following types of staff.

- Safety representatives will be trained in accordance with the Local Authority programme. All Science staff should hold the appropriate certificate enabling them to handle radioactive materials.

5. STAFF CONSULTATIVE ARRANGEMENTS

The Governing Body, through the Headteacher, will make arrangements for the establishment of a Health & Safety Committee by incorporating agenda items on health and safety matters into existing consultative groups. Representation on this committee will cover all appropriate areas of work or special hazards. As a group, the nominated safety representatives of each accredited trade union or staff association will be offered a number of places on this committee and should decide amongst themselves which individuals should sit on the committee.

6. CODES OF PRACTICE, SAFETY RULES AND GUIDANCE NOTES

In consultation with the Governing Body (where appropriate) and taking into account the requirements of this statement the Health & Safety Committee will approve (where necessary) codes of practice for the observation of safety requirements in school.

From time to time the Department for Education and Skills, Health and Safety Executive (HSE), Director of Public and Environmental Services, Director of the Education Department and other regulatory or advisory bodies will issue codes of practice or guidance notes on particular topics to assist Headteachers and others who are in control of educational premises. Normally such codes will be incorporated into the health and safety policy and procedures. If the Headteacher

considers the inclusion of all or any such documents into this policy to be inappropriate, he or she will be required to demonstrate to the satisfaction of the Governing Body that he or she has already introduced codes of practice and methods of working which achieve a similar or higher standard of health and safety.

7. SAFETY AUDIT AND RISK ASSESSMENT

The Headteacher will ensure that the school premises, methods of work (curriculum and non curriculum) and all school-sponsored activities are subjected to an annual (or more frequently, if necessary) safety audit. This survey will identify all defects and deficiencies with risk assessment where necessary to allow necessary remedial action or risk control measures implementation. The results of all such surveys will be reviewed by the Site Manager in conjunction with the Headteacher. The results of the surveys will be reported to the Governing Body.

8. LOCK DOWN PLAN

The Headteacher will ensure that a Lock Down plan is prepared to cover all foreseeable major incidents which could put at risk the occupants or users of the school. This plan will indicate the actions to be taken in the event of a major incident so that everything possible is done to save life, prevent injury and minimise loss. This sequence will determine the priorities of the Lock Down plan.

The plan will be agreed by the Governing Body and be regularly rehearsed by staff and students. The result of all such rehearsals, alongside fire drills, will form part of the regular safety audit / risk assessment survey and the outcomes will be reported to the Governing Body.

9. FIRST AID

The arrangements for first-aid provision will be adequate to cope with all foreseeable minor incidents and a protocol established for calling emergency services should they be required. The number of certificated first-aiders will not, at any time, be less than the number required by law. First aid at work regulations state 1 per 100 employees.

At the discretion of the Governing Body other members of staff will be given certificated training in first-aid techniques to allow them to provide routine support to the Welfare Lead and to provide first aid cover in the absence of the post holder. Members of the school support staff will be encouraged to obtain a first aid qualification as part of their professional development.

Supplies of first-aid material will be held at ARRP points throughout the school. The Headteacher will determine these locations. They will be prominently marked and all staff will be advised of their position. The materials will be checked regularly and restocked from the welfare office as required.

Adequate and appropriate first-aid provision will form part of the arrangements for all out-of-school activities.

A record will be made of each occasion any member of staff; students or other person receives first-aid treatment either on the school premises or as part of a school-related activity. The log will be available on request.
