

Inspiring the Future connects teachers from schools and colleges with thousands of volunteers across the UK, from a huge range of jobs, at all levels, from Apprentices to CEOs through a secure online platform.

Volunteers have signed up to share their knowledge, experience and enthusiasm about their jobs with your students. You can invite them in to your school to help young people to make better-informed decisions about their futures and the part education plays in it.

Students from all year groups will have the opportunity to spend a session with a range of business people who will be visiting the school to discuss their education, career pathways, job market experiences and personal journeys to success.

These sessions will take place in room 41.

January 16th

Civil Servant who works for the home office team leader and senior caseworker offering specialist advice and assurance.
