

We have an outstanding opportunity available for you which is completely unique to the school through our partnership with Johnson and Johnson

A unique opportunity to support your learning through the next 3 years has been developed through working closely. The programme has been carefully engineered, combining university visits, work experience, aspirational speeches from sporting celebrities, as well educational support from professional lecturers across the GCSE exam subjects.

You will have one of the worlds biggest companies pouring thousands of pounds into your future in a One off opportunity in Europe.

For 25 years Bridge to Employment has been building partnerships in local communities with Johnson & Johnson, high schools, universities and NGOs. Supported by FHI 360 as a global partner, BTE prepares young people for brighter futures in school, work and their communities.

<http://www.bridge2employment.org/>.

More importantly they will be committed to helping you, teaching you and letting you experience a world full of possibilities. They are looking to invest lots of money to invest in your future.
